“Gender Equality”

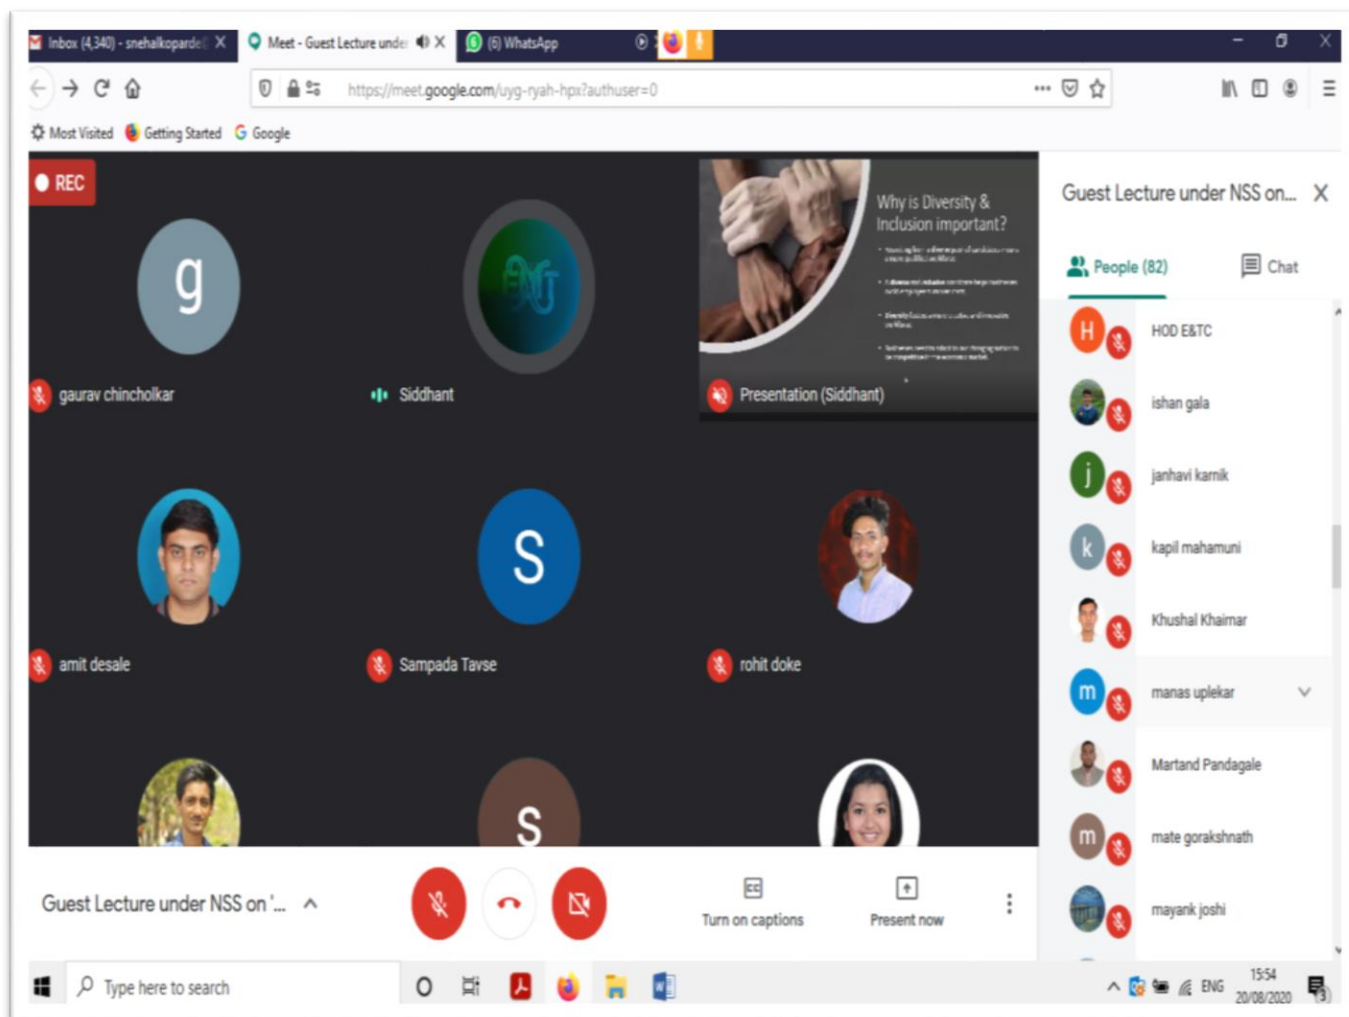

20th August 2020

Dr. Prabhakar Desai,

Savitribai Phule Pune University, Pune.

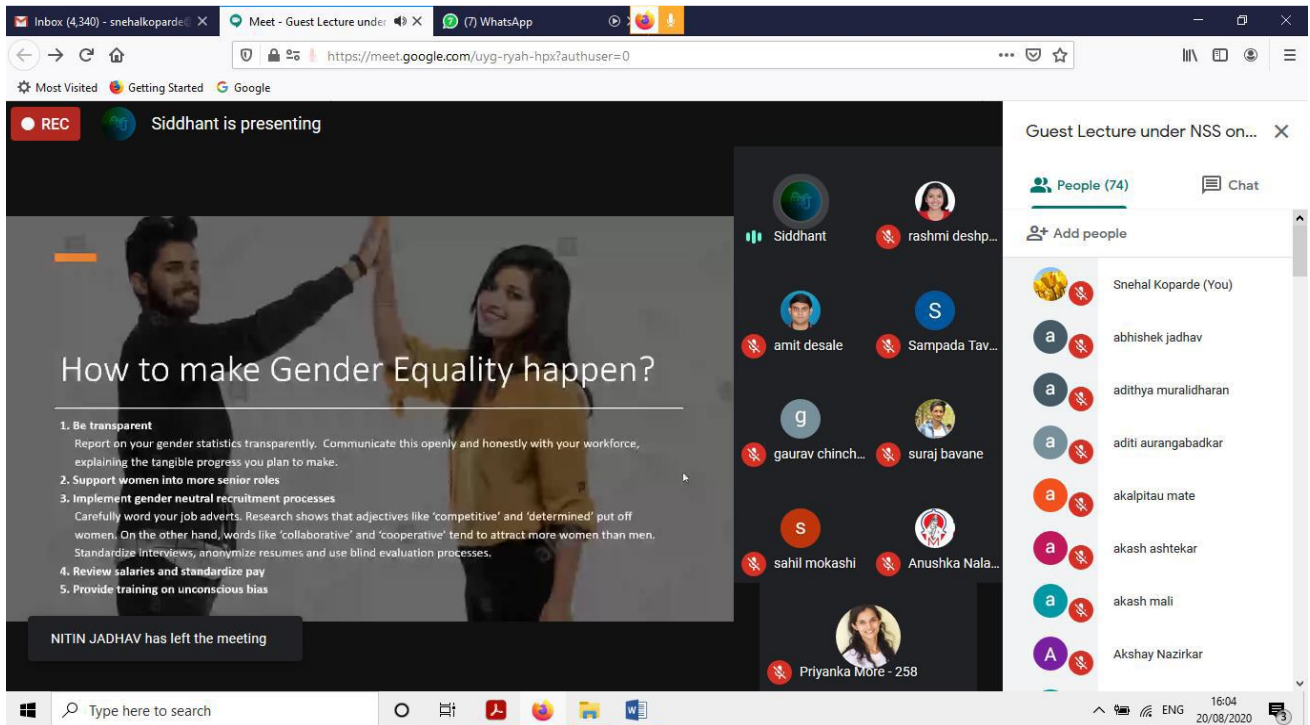

MMCOE, Pune, NSS Committee organized a expert lecture on the “ Gender Equality ” by Ms. Sanjana Vaidya, Associate VP & CoE Head - HR Talent Processes and Diversity & Inclusion Zensar Technologies, Pune, India on 20/08/2020 between 3.30 pm -4.30 pm. at Virtual classroom . This lecture was attended by 40 faculty members, 85 students & interns.

We all are aware that women safety is one big move taken into consideration by most nations. Though why only women, men too are and should be an equal part of it. Gender equality isn't only about women, but men too. To acknowledge us more on the subject, Mr. Santosh Raut (NSS Coordinator) welcomed Ms. Sanjana Vaidya. Ms. Snehal Koparde introduced Ms. Sanjana Vaidya.

The main aim of the lecture was at gender equality, give head start to those who suffered, securing women at workplace and colleges to compete at par, and to help shift from existing gender stereo types. With time, age, culture, and hierarchy it may vary Ms. Sanjana Vaidya informed us about how gender sensitization takes place in the society, such as socialization, which includes family and society, education, media and language. This lead us to think how much a person's upbringing may affect a person's thought process. He made sure to make the session interactive. It was learning and interactive session for the students as well as faculty members where he answered all the queries put up by the students to their full satisfaction.

REC Siddhant is presenting

How to make Gender Equality happen?

- 1. Be transparent**
Report on your gender statistics transparently. Communicate this openly and honestly with your workforce, explaining the tangible progress you plan to make.
- 2. Support women into more senior roles**
- 3. Implement gender neutral recruitment processes**
Carefully word your job adverts. Research shows that adjectives like 'competitive' and 'determined' put off women. On the other hand, words like 'collaborative' and 'cooperative' tend to attract more women than men. Standardize interviews, anonymize resumes and use blind evaluation processes.
- 4. Review salaries and standardize pay**
- 5. Provide training on unconscious bias**
