Event Name: Expert Lecture on Personality Development and Creating Constructive Career

Event Date: 02/09/2017

The Alumni Lecture was organized on 02/09/2017 by the Department of Information Technology. There were around 45+ students from SE. It was a fun filled event at which the SE, students got an opportunity to interact with the alumni. The alumni for the day was Mr Taher Poonawala, Ms. Dhanashree Nazarkar, Mr. Sagar shah, Ms. Neha Nagare and the theme of the guest lecture was Personality Development and Creating Constructive Career. During the course of 1 hour, Mr Taher Poonawala, Ms. Dhanashree Nazarkar, Mr. Sagar shah, Ms. Neha Nagare guided to students facing a variety of career challenges. These challenges may include (but are not limited to) dealing with redundancy; seeking a new job; changing careers; returning to work after a career break; building new skills; personal and professional development; going for promotion; and setting up a business. The common aim of the career guide, whatever the particular situation of the individual being guided, is normally to help that individual gain control of their career and, to some extent, their life. The speaker emphasized the importance of group discussion, communication skills and aptitude. To achieve overall success in life, one must possess a strong personality. While some people are born with it, others can shape up their personality if they work on themselves by attending personality development sessions. Students got to learn step-by-step, systematic methods to enhance their personality through discussions, group activities, questionnaires, individual exercises and practice sessions.

The students got some tips on how to enhance various aspects of their personality. They were advised to have role models, be positive, seek good in past, present and future, strengthening their morality and ethics. They were also taught to nurture relationships, value friendships and express gratitude. Overall, it was an effective session. The feedback of the students was very positive and the students gained a lot of insights about how to set and achieve goals. The students

got some tips on how to enhance various aspects of their career. The feedback of the students was very positive and the students gained a lot of insights about how to set and achieve goals.

Event Name: Expert Lecture on Competitive Exam

Event Date: 23/09/2017

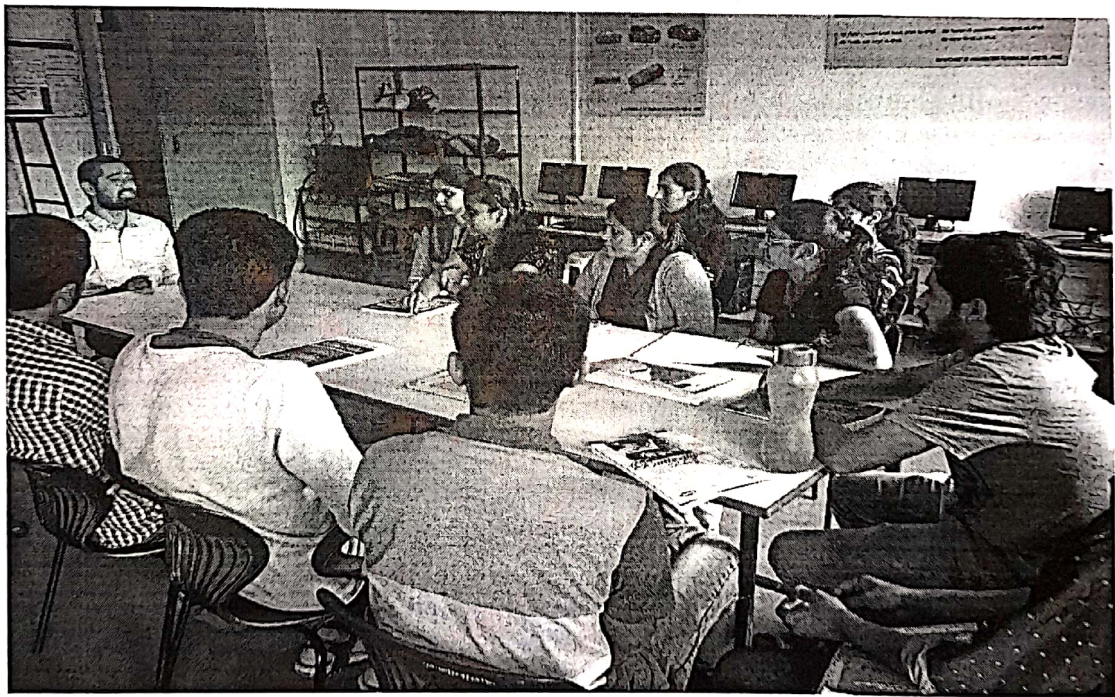

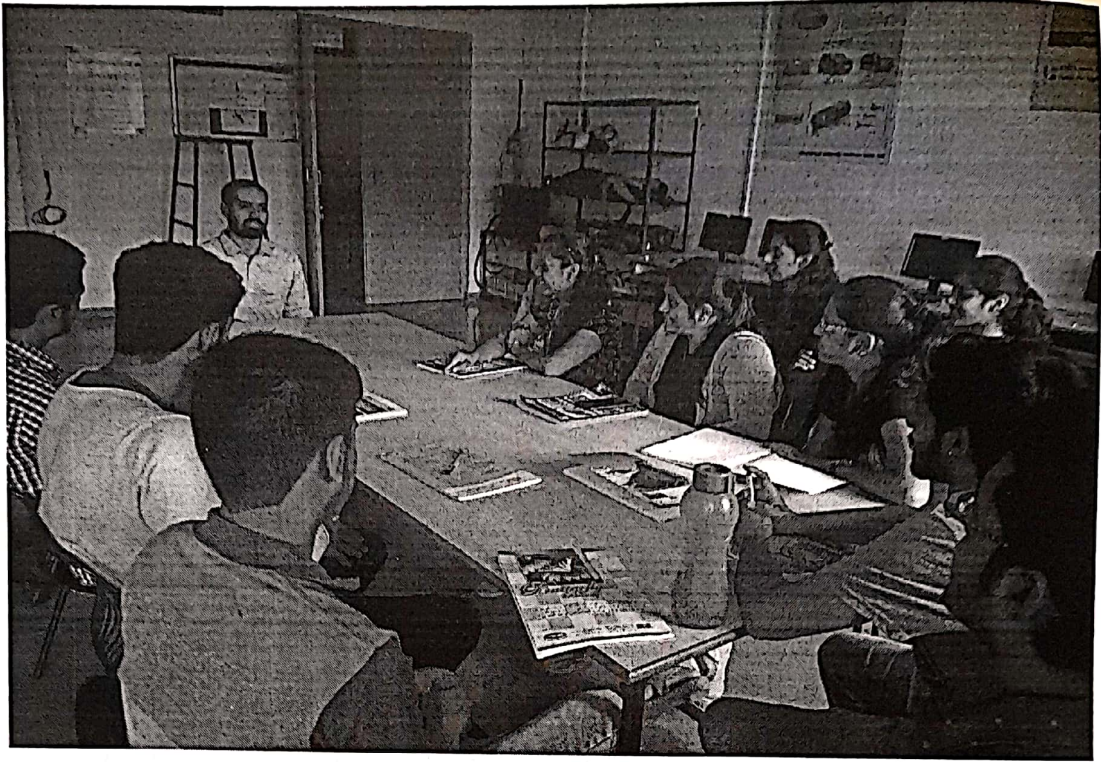

Venue : Lab No 1(Computer Network Lab)

The Expert Lecture was organized on 23/09/2017 by the Department of Information Technology. There were around 20+ students from SE. Students got an opportunity to interact with the alumni. The alumni for the day was Mr. Vikas Sharma and the theme of the expert lecture was Competitive Exam. During the course of 1 hour, Mr Vikas Sharma guided about UPSC exam , different examinations like IPS, IRS and IFS etc.

He advised to get your target set for a particular service so that you can keep a better focus and prepare accordingly. He told While preparing for the most competitive examination, there is no definite answer for the most commonly asked questions like how many hours an IAS aspirant needs to put in every day. It fully depends on the grasping power of the student.

To crack the examination, one should study smart. For this, the aspirant should divide the subjects into manageable chunks. There is no doubt in saying that Competitive exam preparation is a lengthy process. However, the moment you start enjoying your preparation, all the unwarranted stress and anxiety associated with the preparation will vanish.

Usually, the aspirants forget all their hobbies. But the fact is that pursuing hobbies will make your preparation more fun. Every second count and you have to make the best use of it. The mantra for this is only practice and practice, one can see the change in his speed in less amount of time. This will also help in boosting your confidence. This type of exam require months of preparations and while preparing for your exam sometimes you might feel low and get negative thoughts at some point in time, which should not affect your mind. Don't let it destroy your belief.
