## **Sports Committee Report on 5 Surya Namaskar Challenge 2021-2022**

The Fit India Movement is a movement to take the nation on a path of fitness and wellness. It provides a unique and exciting opportunity to work towards a healthier India. As part of the movement, individuals and organisations undertake various efforts for their own health and well-being as well as for the health and well-being of fellow Indians.

Surya Namaskar or Sun Salutation is a sequence of 12 powerful yoga poses. Besides being a great cardiovascular workout, Surya Namaskar is also known to have an immensely positive impact on the body and mind. Surya Namaskar is best done early morning on an empty stomach. Besides good health, Surya Namaskar also provides an opportunity to express gratitude to the sun for sustaining life on this planet.

MMCOE has organized 5 Surya Namaskar Challenge from 29<sup>th</sup> October 2021 to 18<sup>th</sup> November 2021 Under the guidance of Principal Dr.S.M Deshpande and Dr.V.R Deulgaonkar Dean, Student Affairs on above dates. As a part of this movement we have organized this event for our college students, On that Surya Namaskar Challenge each set is composed of 12 yoga poses. All the participants uploaded the video of 5 sets of Surya Namaskar on google form Total 10 participants participated in the above event and All the participants are awarded with E-certificate after successfully uploading the video on Google form.

**Event Name:** Webinar - " Placement Opportunities in I.T. Sector after B.E "

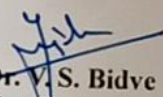

**Event Date:** 24<sup>th</sup> July<sup>th</sup> 2021

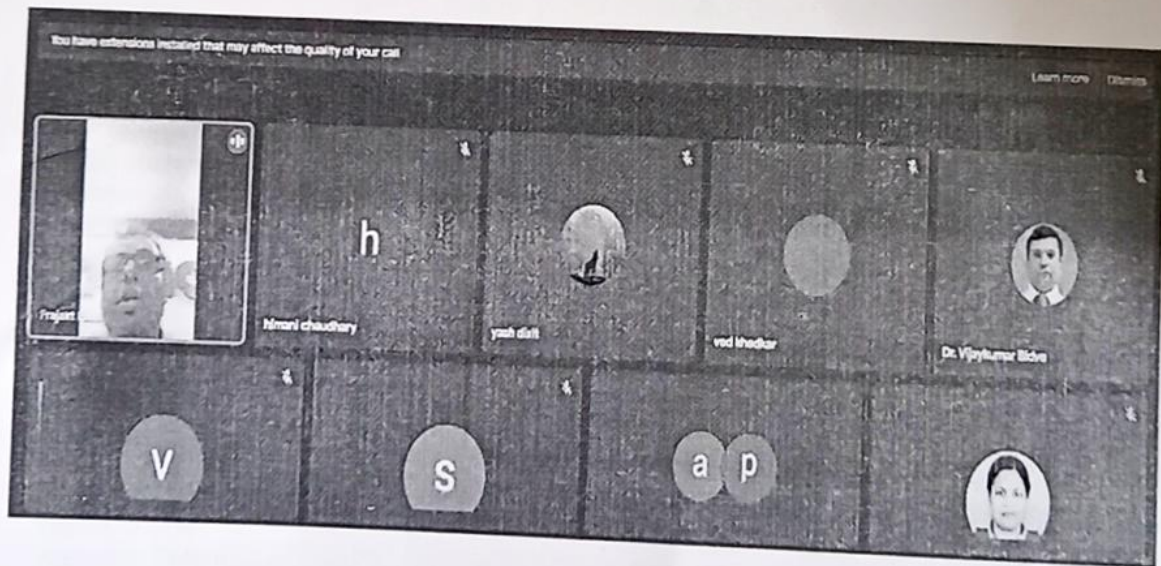

**Mode:** Online

The Departments of Information Technology had organized a webinar on "Placement Opportunities in I.T. Sector after B.E" on 24<sup>th</sup> July 2021 for students of TE & BE. Mr. Prajakt Patki - Director, Envision CTI, Pune was invited as expert for the webinar. Mr. Patki explained the importance to skill development to students rather than just scoring marks in exam. He appealed to the students to work on softskills, programming languages and focus on working on software projects during their engineering education. He asked students not to underestimate their potential and concluded his speech with hoping to see future days where we find an American CEO in an Indian company.

The program was coordinated by Mrs. Preeti Joshi with guidance from Dr. V. S. Bidve, HOD, IT. Principal Dr. S. M. Deshpande supported the event whole heartedly.

**Subject:** Permission to conduct the skill development series on Basic Python for Electrical Engineering Students.

**Respected Sir,**

Electrical Department is organizing the skill development series on Basic Python for department students from 12<sup>th</sup> February 2022. In this program we have scheduled 20 sessions for the students on every day for 1 hr. Python is one of the top three programming languages in the world, and is poised to become the most popular. Also, Python programming is a general-purpose skill used in almost all fields, including data science and web development. It will help to our students in career progression opportunities for Python developers and Full stack developer. The details of this training program are attached herewith.

We have decided to take nominal fees (Rs.100/-) from students for this training program. So we kindly request you to give permission for this skill building training program.

**Subject:** Permission to conduct skill development series on Amazon Web Services for final year Electrical Engineering Students.

**Respected Sir,**

Electrical Department is organizing the skill development series on Amazon Web Services for final year students. In this series, we have scheduled 08 sessions for students on every day for 2 hrs. We are inviting to industrial expert Mr. Shubham J. Ghodeswar (CLOUD Devops Engineer) for conducting this series.

As we know, Most Business are moving their On-Prem Data Centre to Cloud. So there is huge requirement of cloud computing job on various profile like Cloud Admin, Cloud Engineer, Cloud Architect, e.t.c.. The students will learn all the basic services and Modules related to AWS Cloud which will help them to develop applications like website development and answer basic questions during Campus Placement. So our student's needs to learn above mentioned course in order to get them opportunities in industrial sector. This program will be helpful for our students to develop their skill from industrial point of view. These sessions will be conducted online but student will get hands on experience using open source cloud database during this series. The details of this training program are attached herewith.

So we kindly request you to give permission for this skill building training program.

As per the policy, Rs.2,000/- per session so total Rs.16,000/- for this series is requested to kindly sanction.

**Subject:** Permission to conduct the skill development series on Soft skills development for second year Electrical Engineering Students.

**Respected Sir,**

Electrical Department is organizing the skill development series on Soft skills development for second year students from 20<sup>th</sup>, Jan 2022. The program will be of 10 hours duration. As there is a need to groom the qualified students to make them employable in an industry or to make them a successful entrepreneur, this course has been planned. The students will go through various activities, which will help them to become an effective communicator. The details of this training program are attached herewith.

This training program will be free of cost and it is mapped with NPTEL course on 'Soft skills development', so that interested students can get a NPTEL certificate for the course.

So we kindly request you to give permission for this skill building training program.

**Subject:** Permission to conduct the skill development series on AUTOCAD Electrical for third year Electrical Engineering Students.

**Respected Sir,**

Electrical Department is organizing the skill development series on AUTOCAD Electrical for third year students. In this program we have scheduled 20 sessions for the students on every day for 1 hr. We are inviting to industrial expert for providing guidance and conducting 1 or 2 sessions in this series.

As we know, the most of the companies are using AutoCAD tool for different Electrical drawing like Single Line Diagram (SLD), Substation Layouts, Plant Layout, Earthing Layout, General arrangement drawing for Substation equipment, Power Schematics, Control Schematic of APFC Panel, Synchronising Panel, Motor Control Center (MCC), Power Control Center (PCC), Medium Voltage Panel (MV Panel), High Voltage Panel. So there is huge requirement to update this skill in Electrical design area, Control Engineering area, Project Engineering area. Senior Design Engineer etc. The students will learn PLC based Field I/O connections and PLC panel wiring. So our student's needs to learn all above mentioned courses in order to get them job opportunities in industrial sector. We have designed a plan to conduct the skill development series on AutoCAD Electrical. This program will be helpful for our students to develop their skill from industrial point of view. we have a plan of hands on session from 1st Feb 2022. The details of this training program are attached herewith.

We have decided to take nominal fees (Rs.100/-) from students for this training program. So we kindly request you to give permission for this skill building training program.

## Skill Development Series on AUTOCAD Electrical

Course Instructor: Prof. Rohit Madhukar Narkar

Course Period : 20 sessions (Daily 1 hour session)

Course Details :

Session	Course Content (each session 1 hr)
01	Introduction to AUTOCAD
02	Hands on Practice to draw Line, Circle, arc etc.
03	Create your own title block template or import a pre-made template.
04	Create blocks for different Electrical symbols for future use.
05	Different commands used in Autocad and Hands on Practice to draw Single line diagram.
06	Hands on practice to draw control circuit or control schematic of DOL Starter.
07	Hands on practice to draw power circuit or power schematic of Star delta starter.
08	Hands on practice to make control circuit for forward reverse of 3 phase Induction motor.
09	Hands on practice to create Layout drawing of earth pits.
10	Hands on practice to draw Cable tray layout
11	Hands on practice to draw Cable route layout
12	Hands on practice to draw the APFC panel power and control Schematic
13	Hands on practice to Lighting layout as per Illumination design.

<b>14</b>	Hands on Practice to draw General Arrangement drawing for Indoor substation
<b>15</b>	Hands on Practice to draw PLC panel control and power wiring
<b>16</b>	Hands on practice to draw AMF panel drawing
<b>17</b>	Hands on practice to draw Synchronising panel drawing
<b>18</b>	Hands on Practice to draw LV and MV panel
<b>19</b>	Hands on practice to draw Outdoor Substation
<b>20</b>	Hands on practice to draw Blok diagram of thermal Power Plant

**Note:** 30% theory and 70% hands on for all sessions.

**Subject:** Permission to conduct the skill development series on Allen Bradley (AB) PLC and SCADA for third year Electrical Engineering Students.

**Respected Sir,**

Electrical Department is organizing the skill development series on Allen Bradley (AB) PLC and SCADA for third year students from 9<sup>th</sup>, Feb 2022. In this program we have scheduled 20 sessions for the students on every day for 1 hr. We are inviting to industrial expert Mr. Gajanan Chavan, Electrical and Instrumentation Manager in JSW Ports through Randstad India PVT LTD for providing guidance and conducting 1 or 2 sessions in this series.

As we know, the most of the companies are using variety of PLC, SCADA, HMI and AutoCAD Electrical. So there is huge requirement of job in automation sector like PLC programmer, Project Engineer, SCADA Operator, PLC and Commissioning Engineer, Control Engineer, Senior Design Engineer, Service Engineer, e.t.c.. The students will learn PLC based programming, PLC based Field I/O connections and interfacing of PLC and SCADA which will help them to design and develop the college and industrial based projects. So our student's needs to learn all above mentioned courses in order to get them job opportunities in industrial sector. Initially, we have designed a plan to conduct the skill development series on Allen Bradley (AB) PLC and SCADA. This program will be helpful for our students to develop their skill from industrial point of view. Presently, these sessions will be conducted online. As and when student's comes in college, will have a hands on session also. The details of this training program are attached herewith.

## Skill Development Series on Allen Bradley (AB) PLC & SCADA

Course Instructor: Prof. A. K. Lohate

Course Period : 20 sessions (Daily 1 hour session)

Course Details :

Session	Course Content (each session 1 hr)
01	Introduction about Automation and Allen Bradley PLC(Why it is needed, Opportunity in Future, Role of Engineer, e.t.c)
02	Introduction about Rslinx Classic, Rslogix micro English & field I/O connections of Micrologix PLC, create new project
03	Design of ladder diagram, interfacing of push button and lamp to verify all logic gates
04	Design the program for water level management (NO and NC based program using actuators and sensors)
05	Remote controlling applications, Set/Reset operation by using two push buttons
06	Delayed operation of lamp & DC motor by using toggle switch/Push button
07	Smart traffic signal control system using PLC (Push button, Indicators & hooter)
08	PLC based program for entry/exit control of car parking using indicators, sensors, push button and maintenance switch (UP/DOWN counter based program)
09	
10	Design program based on counter and timer for lamp ON/OFF operation (Counting ON/OFF operation of lamp)
11	Sequence control programming using SQO (water bottle Manufacturing plant)
12	Temperature control programming with fault identification using SCP (RTD analog module, heater, cooler, push button, indicator & hooter)
13	Introduction about SCADA (Wonderware In-touch) (importance of SCADA in industrial sector, wizard, properties, features, e.t.c..)

14	Design of water bottle filling plant (using SCADA properties)
15	
16	Monitoring of temperature variation by using real time and historical trend
17	Alarm announcing by PLC and SCADA (Push button & hooter)
18	Interfacing of PLC & SCADA for session 03, 05, 06
19	Interfacing of PLC & SCADA for session 07, 10
20	Monitoring and recording of Temperature data with time in third party database (excel) using PLC & SCADA Data logging feature

**Note:** 30% theory and 70% hands on for all sessions.

### Skill Development Series on Allen Bradley PLC and SCADA

Mr. Ajay Lohate, Asst. Prof, Electrical Engineering department, organized the skill development series on **Allen Bradley PLC and SCADA** for third year students from 09/02/2022. The program was of 20 hours duration. Total 42 students were participated in the course. This course had covered the topics of PLC Architecture, PLC Applications, Project, Interfacing, Preparation of datasheet etc.

#### Outcome of the session:

The students are able to,

- Design PLC based programming and interface PLC with SCADA for monitoring and controlling the plant (BTL-6)
- Analyze the graphical presentation of the physical parameters (BTL-4)
- Decide digital and analog I/O's for the selection of PLC and also learn PLC based field I/O connections (BTL-5)
- Design and develop PLC based applications (BTL-6)

**Respected Sir,**

Electrical Department is organizing the skill development series on Basic Python for department students from 12<sup>th</sup> February 2022. In this program we have scheduled 20 sessions for the students on every day for 1 hr. Python is one of the top three programming languages in the world, and is poised to become the most popular. Also, Python programming is a general-purpose skill used in almost all fields, including data science and web development. It will help to our students in career progression opportunities for Python developers and Full stack developer. The details of this training program are attached herewith.

We have decided to take nominal fees (Rs.100/-) from students for this training program. So we kindly request you to give permission for this skill building training program.

**SUBMITTED**

**Subject:** Permission to conduct the skill development series on Soft skills development for second year Electrical Engineering Students.

**Respected Sir,**

Electrical Department is organizing the skill development series on Soft skills development for second year students from 20<sup>th</sup>, Jan 2022. The program will be of 10 hours duration. As there is a need to groom the qualified students to make them employable in an industry or to make them a successful entrepreneur, this course has been planned. The students will go through various activities, which will help them to become an effective communicator. The details of this training program are attached herewith.

This training program will be free of cost and it is mapped with NPTEL course on 'Soft skills development', so that interested students can get a NPTEL certificate for the course.

So we kindly request you to give permission for this skill building training program.

## **ELECTRIC VEHICLE DESIGN COURSE**

Date: 02<sup>nd</sup> Feb to 04<sup>th</sup> Mar 2022

Time: 07:00 – 07:45 PM

Day 1	Electric Vehicle Introduction
Day 2	MATLAB - Simulink Introduction
Day 3	Forces & Power Calculation on EV Calculations
Day 4	Intro to Autonomous Vehicle
Day 5	Power Electronics for Automotive Industry
Day 6	Rectifier Design
Day 7	Power Factor Correction Design
Day 8	Power Inverter design for EV Application
Day 9	Intro to eMotors for EV Application
Day 10	DC Motor Speed Control - Simulink
Day 11	BLDC Motor Control - Simulink
Day 12	FOC Control of 3 Ph Induction Motor - Simulink
Day 13	PMSM Motor Control MATLAB Simulink
Day 14	SRM Motor Control MATLAB Simulink
Day 15	Introduction to Battery Modeling MATLAB Simulink
Day 16	Battery Management System
Day 17	SOC Estimation, Protection
Day 18	Battery Thermal Management System
Day 19	Simscape Introduction
Day 20	Simscape Fundamentals
Day 21	Vehicle Modeling Intro
Day 22	Power Train Modeling
Day 23	Vehicle Drive and Control
Day 24	Sensor Circuit Design for EV Application
Day 25	MCU for EV Application
Day 26	Speed, Voltage, Current Integration with MCU
Day 27	Gate Drive Design for EV Application
Day 28	Arduino Based Induction Motor Control

CERTIFICATION COURSE

CHALLENGE ON EV Design using ELECTRIC VEHICLE DESIGN MASTER  
CLASS  
(30 Days Course)

Pantech ProLabs India Pvt Ltd has organized the course on 30 DAYs CHALLENGE ON EV Design using ELECTRIC VEHICLE DESIGN MASTER CLASS. The Objective of this Webinar Series is to facilitate the participants to get cognizance of the concepts dealt with for substantial utilization of the same into studying, teaching, Research work, and upgrading.

54 students have participated in this course held during 02<sup>nd</sup> Feb 2022 to 04<sup>th</sup> Mar 2022.

 Email Id: nehruayushman@gmail.com  
 Date of Birth: 16 August 1997  
 Language Proficiency: English, Hindi, Kashmiri  
 Hobbies: Avid interest in innovation and latest discoveries in Electronics and Telecommunications, Traveling.

**CAREER OBJECTIVE:** To develop skills and abilities through intensive problem solving to accomplish challenging tasks and contribute to development of the innovation in Electronics and Telecommunications today.

### EDUCATIONAL QUALIFICATION:

Degree	University/ Board	Year of passing	Aggregate Percentage or CGPA
BE (E&TC)	University of Pune	2019	7.51
H.S.C	CBSE	2015	69.4%
S.S.C	CBSE	2013	6.20

### ACADEMIC PROJECTS:

- Line Following Robot, Power Electronics - 2018 – This projects is based on IR sensors and L293D IC, where IR sensor senses surface and L293D IC drives motor.
- Advanced controller for smart city lighting application, Power electronics - 2019 – In project streetlights are dimmed using PWM and TRIAC. We can control Street light by various methods such as Bluetooth, Relays, etc. Some other features are bypass facility, LDR interface, Motion sensor etc. This project will play major role in Smart City Project.  
**Project Sponsored by Sunshine Powertronics, Manjhiri, Pune.**

### Experience:

- MTS-1 – Mavenir Systems Private Limited, Bengaluru, KA, India** **JUL 2020- Present**
- Hands on experience on running CI single cell setup, Handover setups (INTRA-DU and S1/X2AP).
  - Hands on experience on collection of logs (Qxdm, DBG, PCAP) and analyzing it using Wireshark and QCAT.

## CURRICULUM VITAE VERSUS RESUME

- ✦ CV is normally lengthy and is for experienced candidates
- ✦ Resume is more academic and is for fresh candidates
- ✦ CV should be ideally also up to 15 pages
- ✦ Resume of couple of pages is worth it
- ✦ You may not always control this count
